INTRODUCTION

R. J. Draper with his sons John and Mac have become a real power in the Shorthorn field since starting this herd some twenty years ago. The original cow herd was started with ten cows from his own family and this foundation has been augmented by purchasing top females from leading herds and from the best dispersions. They bought the best bulls available including two Champions from the Brandon Bull Sale and a top seller out of the Saskatoon Interprovincial Shorthorn Show and Sale.

Their first cattle were brought out about ten years ago when they started showing steers. They have won the steer class at the Toronto Royal, a Champion at the Brandon Summer Fair and a Reserve at the Manitoba Winter Fair. With this experience to go on they then started showing in the breeding classes and about their first time out, with the get of "Balrossie Authority," they won five Firsts, Junior Champion and Reserve Grand at the Manitoba Winter Fair with only six head. They have continued their winning ways and this year carried their Show Herd on a nine show circuit. They came up with the 1st Place Breeders Herd and 1st Place Get of Sire at the Shorthorn Regional Show in which there were 106 head entered. They took the 1st Place Three Calf class at both Winnipeg and Brandon Class A Fairs. They had six heifers out and four of them were Champion of at least one show. These good heifers are a feature of this sale.

Because of an increase in his cropland and a decrease in pasture, Mr. Draper feels he should disperse completely his interest in the Rothbury Shorthorn herd. The Draper name will continue in the annals of Shorthorn history as John and Mac have ten of their own cows and have purchased their father's interest in the "Louada Apollo" bull.

The Shorthorns selling include the good heifers they showed this summer which are in top bloom and excellent condition although they are out on grass at present. The balance is a working herd of good, richly bred cows that sell in ordinary pasture condition. This herd has always wintered outside under loose-housing and are maintained on a strictly roughage ration without ever having tasted grain. These are the kind of cattle that make for a good investment.

Again I will look forward to meeting my many friends of the Shorthorn breed at this Dispersal. Manitoba can and is becoming the Shorthorn capitol of the world—your part in this progressive march can be enhanced by selecting females from this sale which will be one of the best offerings in Western Canada this year. Only in a dispersion sale can females of this quality be obtained.

GLENKAIR WHITE EMBLEM -353270-

Grand Champion bull at the 1955 Brandon Winter Fair. We showed him at seventeen shows and he was Grand Champion at sixteen of them. He was a great sire, his calves were very easy fleshers and his daughters were all great milkers. His sire was bred in the well known Kair herd in Scotland. His mother was bought by Glen Powell at \$1750.00 as a young heifer in Henry Washington's sale.

Bred to Louada Apollo. Lost a good red bull calf with infectious scours this spring. She has been a good breeding cow. We have sold many good bulls off her. Our closest neighbor, Ray Maguire, is using one of them with great success. A big, tremendous fleshed cow. "Kilbright Norman 2nd" left plenty of size and good fleshing. "Red Gentle Star" is also the mother of Gentle Lady—Lot 12.

Pasture bred to Louada Apollo. She lost a red bull calf this spring with infectious scours. A good-headed young cow.

BAPTON CONSTRUCTOR sire of LOUADA APOLLO

This world renowned sire is probably having a greater influence on Shorthorn cattle than any other bull in history. He was owned in three countries, has had sons exported to at least three other countries and has more direct sons serving in top herds than any other bull. "Constructor" lives on through his potent sons and grandsons.
